## FEEDING DIRECTIONS

Feed **FMI SHEEP MINERAL** free-choice to lambs and mature sheep in self feeders protected from the weather near the water supply. Sheep should consume 1.0 to 2.0 ounces per head per day depending on age and size. When first introducing Sheep Mineral, monitor the consumption of mineral. Withholding salt for one to two weeks to stimulate mineral consumption may be necessary. After the initial salt withholding period, offer salt free-choice.
